Congratulations !

Dear New Shepard M8 Team,

with great pleasure we received the message about Sunday's successful New Shepard flight and the nominal execution of all experiments on board.

For the first time, DLR has been customer on this promising new flight opportunity for scientific experiments under space conditions.

Heartiest congratulations to all of you for performing and enabling excellent science on a high parabola into space.

Kind regards from DLR Bonn

Dr. Peter Gräf
Head of Microgravity Research
and Life Sciences

Dr. Otfried Joop
TEXUS Program Manager
